

SKIN ROOTS

TREATMENT GUIDE

PERFECTION IS NATURE

SKIN ROOTS

Welcome to a home away from home. A place where you'll feel connected, as if part of a family.

Our old school values are entwined with modern technology and treatments to give you a full circle experience.

All our treatments are performed by highly qualified hand-picked Somatologists specialising in the field of aesthetic skin care and laser treatments.

All skin treatments listed includes the neck and decolleté at no extra cost as we believe that the neck and decolleté forms part of your face and should be treated with the same actives in order to keep our promise of having a holistic approach.

Experience clinical aesthetic treatments in a relaxed environment. Let's start your journey...

CONSULTATIONS

Skin Analysis & Consultation	R300

Performed by our Medical Doctor.

Botox injections

R75 per unit

Botox® is the injection of a substance called botulinum toxin used for the treatment and prevention of wrinkles. This is an effective treatment for relaxing 'strong' facial muscles by blocking the nerve signals in order to prevent the muscle from over-contracting which in effect causes wrinkle formation on the skin. The treatment is approved by the FDA and many clinical studies had been done to prove its safety and effectiveness.

Dermal Fillers

R3500 per 1ml

Hyaluronic Acid is a natural substance found in the body responsible for retaining moisture. Dermal fillers are Hyaluronic acid gels of non-animal origin that are being injected into the skin to harmoniously restore volume. The product can be used in different areas of the face to obtain the desired results. It is mainly used to correct wrinkles; plump up the lips; shape and contour the face and improve the tone and elasticity of the skin.

Usually 1 vial per decade of age is required.
(Average price depending on product used)

Thread Lifting

Thread Lifting is a new technique in facial rejuvenation. Due to its non-surgical benefits it offers minimal downtime and only a short recovery period as apposed to conventional face lifting. During the procedure biodegradable threads are inserted into the deeper connective tissues where they attach themselves and creates a tension towards a specific direction. This mild stretch creates a natural increase in connective tissue which allows the skin to become firmer.

(Priced according to each individual's needs & concerns.)

Sculptra

R7500 per treatment

Sculptra is an FDA-approved injectable that helps gradually replace lost collagen (the most common protein in the body that is used to form a framework to support cells and tissue) for results that can last up to two years. As a poly-L-lactic acid (PLLA) collagen stimulator, Sculptra helps restore the deep, underlying structure of the skin to diminish facial wrinkles. As the Sculptra PLLA microparticles are absorbed, they help stimulate collagen production. Rebuilt collagen strands begin gradually helping to restore facial volume and the look of fullness to wrinkles and folds.

1 vial per treatment
3-5 treatments required

PRP

R4000 per treatment

Also known as the "Vampire" facial.

The liquid gold! Platelets express and release growth factors and cytokines, mediating different wound-healing phases. By injecting this PRP (Platelet Rich Plasma) into the desired area, we get a global rejuvenation of the targeted tissue by activating the wound-healing response.. The effect: healing the body with its own building blocks!. We are able to treat various tissues such as facial, scars, stretch marks and even intimate areas.

PRP Intimate (P-shot / O-shot)

Injecting PRP into intimate areas will invigorate the tissue to more sensation and improve sexual health.

L A S E R H A I R R E M O V A L

This specialized laser device is specifically focused on hair removal which allows a virtually pain free experience. The Diode system can treat all phototypes, hair types and body areas safely. The elysion-pro platform is designed to work with four different wavelengths (755nm, 810nm, 940nm, 1060 nm) to permanently and safely remove any type of hair on all skin types. Its high power (2000W) ensures maximum safety and effectiveness with results that speaks for itself.
